## Healthy little hands

Teaching children to wash their hands properly?  
We've got lots of healthy ideas.

It's well known that one of the best ways to stop illness from spreading is through thorough hand washing and drying. Correct hygiene practices in childcare reduce the spread of infection between children and adults and help children develop good hygiene habits for life. No wonder National Quality Standards (NQS) requires hygiene practices to be actively and consistently promoted and embedded in your everyday program.

Tork®, the number one professional hygiene brand in the world, has developed a new 'Healthy little hands' program with the aim to improve hand hygiene.

### Improve hygiene

---

### Use less

---

### Save more

#### Tork childcare range

- Includes washroom products designed with **children in mind**
- **Easy-to-use products** and fun activities make hand hygiene fun and easy
- Innovative products can **improve hygiene** across other areas of your centre

#### NQS and hygiene

- The Tork childcare range and 'Healthy little hands' program also helps you **meet or exceed NQS**
- We can provide **expert advice** on your hygiene requirements
- You can make a **responsible choice** with FSC® certification

#### Use less, save more

- Tork dispensers are designed to **reduce consumption**, so you save more
- **Use half as much** with Tork half-size hand towels
- **Use less** with Tork Foam Soap – 150% more washes per cartridge compared to 1,000ml liquid soap

## Learning to be healthy

Dispensers in the Tork childcare range are designed with children in mind. Foam soap makes hand washing **easy and fun** with bubbly foam and a unique soft-push dispenser that is easier for little hands to use. While little towels are **easier to handle** so it's easier to dry hands properly. We can also recommend the right height for installation for little hands.

Our Tork 'Healthy little hands' Educators' packs include –

- Teaching aids
- Fun activity sheets
- Our 'Healthy little hands' song
- Hand washing stickers
- Fun and informative tablet app – Ella's hand washing

By introducing an inspiring tool for children, we aim to minimise infections and make handwashing fun and more effective.

## Washrooms and nappy change

To improve hygiene in childcare washrooms, ensure you provide easy to dispense and use toilet tissue, hand towel and soap along with simple guidance.

Issues that occur in washrooms can affect both children and staff. Issues commonly faced include:

- Poor hygiene that can result in illness
- Messy washrooms
- Spread of infectious disease between children and staff

## Cleaning

Thorough cleaning in childcare is crucial to limit the transfer of germs. Colour coded cloths used in specific areas in your centre can reduce the chance of cross contamination.

When cleaning a number of areas, germs can easily be transferred throughout the centre. Issues that are commonly faced include:

- Illness as a result of cross contamination
- A specific use of a cloth is not clearly identified
- Multi-use cloths being overused

Cleaning cloths	Tork code	Description	Quantity per pack	Packs per case
<ul style="list-style-type: none"> <li>- <b>Colour coded cloths</b> – 4 colours in all</li> <li>- <b>Reduce the risk</b> of cross contamination</li> <li>- <b>Colour coding</b> – Blue for general cleaning, Green for kitchens, Yellow for infectious areas and Red for toilets and washrooms</li> </ul>	297402	Tork Blue Long-Lasting Cleaning Cloth	90 cloths	4

## Eating and drinking

Napkins are important to wipe little hands and faces after eating as well as for staff in break areas. Easy, one at a time dispensing makes Tork Xpressnap® perfect for the table.

Wherever food is served or eaten, hygiene is important. Issues that are commonly faced include:

- The use of washcloths that can result in cross contamination between children
- Messy areas that are not presentable
- High costs associated with waste

## Healthy forests, healthy future

Sustainability is now a big part of a child's education and is also an important requirement of NQS.

We all share the responsibility of handing down healthy forests to our children and grandchildren. As the health of the world's forests has a direct and significant impact on clean water and air – the very resources we need to live.

This is why Tork dispensers are designed to reduce usage and waste and why we offer a large range of FSC certified toilet paper, hand towels, wipers and napkins.

### Use less, waste less

- Tork dispensers are designed to **reduce consumption** and use refills to the end
- Tork packaging is **recyclable**, as are dispensers at the end of their lives

### Accreditations

- FSC (Forest Stewardship Council®) certification is internationally recognised as having the most rigorous environmental and social standards for responsible forest management and traceability.
- The life cycle approach of the EU Ecolabel guarantees that the products' main environmental impacts are reduced in comparison to similar products on the market

### Composting

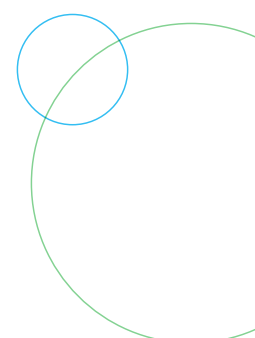

- Ask us about innovative hand towel and food scrap composting by Hungry Bins® and reduce waste going to landfill by up to 50%

The mark of responsible forestry

“The Tork Mini (Multifold) Hand Towels are half the size, so they're perfect for kids hands and I could see straight away that they would help us achieve our sustainability goals.”
